

Title

Piecing together the jigsaw puzzle of the management of male sexual dysfunction

Overview

In this session, members of our multi-disciplinary team will provide an overview of male sexual dysfunction including presentation, contributory conditions / causes, investigations, treatment options and optimal referrals pathways available to GPs. Case studies will be used for context.

To make this session as interactive as possible and relevant to you in your general practice setting, we encourage all attendees to send us any questions you have on male sexual dysfunction as well as any case studies you would like to discuss in advance of the session so they can be addressed throughout the evening.

Questions and case studies can be directed to grace.linehan@apcr.org.au.

Speakers

Dr Pras Satasivam, Urological Surgeon & Uro-oncologist.

Ms Evie Mertens, Urology Nurse Practitioner.

Ms Lauren Clarke, Pelvic Floor Physiotherapist.

Learning Outcomes

By the end of this activity, participants will be able to:

1. Outline contributory conditions and causes of male sexual function issues.
2. Identify treatment options and resources for use in the primary health setting.
3. Explain the role and benefits of a tailored pelvic floor physiotherapy program for patients experiencing male sexual dysfunction.

RACGP

1.5 CPD Educational Activity hours.
