Male Sexual Function Workshop For Nurses Working With Prostate Cancer Patients

Overview

This workshop is for nurses who are interested in learning foundation skills in male sexual function and prostate cancer related sexual dysfunction. Learn from experts through a series of lectures and hands-on sessions to gain knowledge and practical skills to help patients with erectile dysfunction following prostate cancer treatment.

Target Audience

Beginner / intermediate nurses working with prostate cancer patients who are interested in furthering their knowledge and building their confidence on prostate cancer related erectile dysfunction and treatment options.
